Summary

Backend engineer building APIs and business systems with Python, FastAPI and Django REST Framework. Independently built and deployed a finance and payroll system for a private clinic (86 API endpoints, 166 tests). Economics with Finance graduate with 7+ years of experience in operations, supply management and logistics.

Technical Skills

Languages and frameworks: Python, SQL, FastAPI, Django, Django REST Framework, Pydantic
Databases and ORMs: PostgreSQL, Redis, SQLAlchemy (async), Django ORM, Alembic
Background jobs and deployment: Celery, Docker, Docker Compose, Render, Neon
APIs and security: REST, OpenAPI/Swagger, JWT, role-based access control, rate limiting
Testing and tools: pytest, Git, GitHub, Postman; AI-assisted development (Claude Code, Codex, Cursor, etc.)

Projects

Clinic CRM | *FastAPI, PostgreSQL, Redis, Docker* github.com/Aminovich7/clinic-crm-showcase
- Designed, built and deployed a finance and payroll system to replace a private clinic's spreadsheets and paper records: receipts, doctor commissions, payroll, pharmacy and expenses.
- Implemented commission and salary-proration rules with exact `Decimal` arithmetic and per-receipt rounding.
- Secured 86 REST endpoints with JWT access and refresh tokens, Redis-backed revocation and three user roles.
- Wrote 166 pytest tests, fixed an N+1 payroll query, and deployed it with Docker on Render and Neon.

EduGroup | *FastAPI, PostgreSQL, Celery, Redis, Docker* github.com/Aminovich7/edugroup
- Built an online learning platform with four roles, an automatic enrolment waitlist and instalment payments.
- Set up Celery jobs that expire unpaid enrolments and flag overdue instalments; 193 pytest tests.

Suhulat | *Django REST Framework, PostgreSQL, JWT* github.com/Aminovich7/suhulat.uz
- Built a marketplace API with listings, quotations and offers, order workflow and admin moderation; 19 tests.

Smart City (team project) | *Django* github.com/Aminovich7/smart-city
- Co-built a four-role incident-reporting system with photo evidence and auto-closing of unconfirmed reports.

Experience

Dispatch Coordinator, Car Hauling May 2023 – Jan 2026
Prime Track Inc. *Hicksville, NY, USA (Remote)*
- Dispatched 7- and 9-car haulers: 2,150+ vehicles, 130+ trips, $3M+ gross revenue.
- Sourced loads on Central Dispatch and Super Dispatch; negotiated rates with 130+ brokerages and dealers.
- Stood in as operations manager, trained new dispatchers, and handled damage claims and DOT compliance.

International Relations and Operations Coordinator Jul 2021 – May 2023
BROSMED Medical Clinic *Tashkent, Uzbekistan (Hybrid)*
- Brought in MIOT International (India) and partners in Turkey, and organized doctor exchange programs.
- Managed international procurement of medical equipment, supported hiring and trained staff on data entry.

Operations Specialist · Materials Specialist · Warehouseman May 2018 – Jun 2021
KBR (formerly KBRwyle)
- Advanced from tool room warehouseman (2018) to materials specialist (2019) and operations specialist (2020).
- Ran tool room inventory control, receiving inspections and government-property dispositions.
- Tracked assets in IBM Maximo and Deltek Costpoint, placed SAP orders, and built Cognos and Excel reports.

Education

Najot Ta'lim Jan 2026 – Aug 2026
Python Backend Development program *Tashkent, Uzbekistan*
- Django, Django REST Framework, PostgreSQL and Git, with an introduction to FastAPI.

Westminster International University in Tashkent Tashkent, Uzbekistan
BSc (Hons) Economics with Finance

Leadership, Achievements and Languages

Event Manager (intern), Young Leaders Development Project, UzTEA (Nov 2017 – May 2018): co-organized a summit for 70+ international students and other youth events (partners incl. US Embassy, British Council, UNDP); Best Intern of Generation 6.
Sports: multiple regional titles in Combat Sambo and Jeet Kune Do; 2nd place in inter-university football (WIUT).
Languages: Uzbek (native), English (full professional), Russian (limited working), Turkish (limited working)
